| Job Title | Sustainable Energy Executive |
| Department/Client Account | Not disclosed |
| Line Manager Matrix Manager | Associate Director Directors |
| Job Summary/Goals | <p>Description</p> <p>KSN Horizon is a new division of the award-winning KSN, KSN Project Management and KSN Energy, a company that will deliver bespoke sustainable and ESG solutions to the real estate sector.</p> <p>There is no company whose business model will not be affected by the transition to a net-zero economy.</p> <p>As the transition accelerates, companies with a well-articulated, long-term carbon mitigation strategy that clearly sets out the transition to net-zero, will inspire confidence in their ability to navigate this global transformation. KSN Horizon provides strategic sustainable solutions to both new build projects and existing property portfolios.</p> <p>We are delighted to announce a fantastic new opportunity for an Energy Executive to join our Dublin based Horizon team.</p> <p>This role will support the activities of our newly established Horizon division, working alongside highly experienced stakeholders within the cost consultancy, project delivery and sustainable energy sectors.</p> <p>The successful candidate will join an industry leading organisation with the capacity to build and support a highly rewarding career. A dedicated mentoring programme will also be in place to harness ongoing learning and development.</p> |
| Key Accountabilities | <ul style="list-style-type: none"> • Assist with the implementation of Ireland’s Climate Action Plan; • Drive operational activity through the identification and implementation of opportunities to improve energy and sustainability performance; • Working Experience in Energy Improvement Technology and Techniques; • Project delivery expertise in the Sustainable Solutions sphere; • Measurement and assessment of Embodied Carbon in buildings; • Life Cycle Assessment reporting; • An understanding of Energy Management and Energy Savings; • This role will involve both practical and theoretical elements. Significant ‘hands-on’ technical understanding and experience will be required. • As this is a new role, the above should be viewed as an initial guide on accountabilities. We anticipate swift and exciting developments within this role as the sector continues to grow. |
| Person Specification | <ul style="list-style-type: none"> • A minimum of 5 years’ experience in a relevant sector; • Chartered Engineer in a relevant field or Degree/MSc qualified candidate in a relevant Sustainable Energy Management discipline; • Excellent understanding of Energy Efficiency solutions; • Willingness to learn and develop new skills within this growth sector. |

| | |
|----------------------------|---|
| Skills/Competencies | <ul style="list-style-type: none">• Experience in sustainability in the building environment;• Demonstrable ability to work on own initiative and as part of a team;• Working knowledge of MS Office including Outlook, Word, PowerPoint & Excel;• Strong organisational skills and an ability to prioritise key tasks.• Works collaboratively and positively with colleagues and management; |
